## *Programs and Services*

Monmouth Medical Center provides a full spectrum of services, earning national, state and regional recognition for many of its programs, including the recent designation of Monmouth as a Children's Hospital for Monmouth and Ocean counties. Monmouth also was selected for the 2005 Solucient 100 Top Hospitals Performance Improvement Leaders Award — a program designed to identify hospitals that have instilled a true culture of performance improvement across their organization for five consecutive years. Performance improvement leaders, as shown by objective statistical national comparisons, have led their organizations to improve hospitalwide performance consistently, year after year, at a substantially faster rate than peers across the U.S.

Here's a listing of what Monmouth has to offer to the 1 million residents that comprise its primary service area of Monmouth County and portions of Ocean and Middlesex counties.
